FlexiForce Product Catalogue, 2019-Q1

HARDWARE PARTS - 2019-Q1

Now we present to you our complete range of hardware parts for residential and industrial overhead doors.

This list allows you a good and clear overview of all FlexiForce products, systems and services, offered today out of FlexiForce subsidiaries in Europe, Middle-East and Africa (EMEA). It is now easy for you to select exactly the offer that fits your business model and your local market approach. It is our ambition to be the best supplying partner for everything needed to produce automated sectional overhead doors.

Let's grow our business together!

WHO ARE WE TODAY?

FlexiForce, established in 1980, is specialized in offering hardware parts, automation, panels and hardware systems for residential (garage) and industrial overhead doors. We believe in the market opportunities of our worldwide customers: independent, often local or regional, door producers. FlexiForce products and services support door companies in offering competitive door solutions. Our core competences lie not only in the design and quality of the products and systems, but even more in understanding the need for an efficient supply chain of products. Meaning to have each hinge, hardware set, industrial door opener and more, available within optimal lead time and transport distance. This is facilitated through our worldwide production and warehouse facilities in Canada, United States of America, United Kingdom, the Netherlands, Germany, Spain, Hungary, Turkey, Italy, Poland and China.

Find us on www.flexiforce.com.

Talk with us on:

This price list presents our full range of hardware parts. Still the core of FlexiForce today. Door companies that have the size or the ambition to fully produce the doors by themselves, by taking parts out of their own stock, can find all the bulk hardware parts, profiles, torsion springs and tools. Article code, a picture of the product, summary description, list price, weight and full package quantities. All you need to know for ordering your stock quantities from your nearest FlexiForce distribution centre. The sorting order of the products in the list is harmonized with our online product catalogue and with the new FlexiForce webstore. Find updates, details, drawings, movies and more per product on www.flexiforce.com (select catalogue) or on webshop.flexiforce.com.

Term and conditions

All our quotations, all orders placed and all contracts are subject to the "Metaalunie Conditions" which can be found on our website. Our prices are:

- valid for orders from 04-02-2019
- based on payment within 30 days net.
- ex-warehouse FlexiForce: Netherlands, Hungary, Spain, Italy, Poland, Turkey
- including packaging
- gross (list), excluding V.A.T.
- in euro
- free of obligation, non-binding and subject to change with our prior notice.

Orders with a value of less than 250 euro and rush orders could be charged with additional handling fees. FlexiForce can offer you third party freight rates and services on request. Find our terms, conditions and disclaimers on www.flexiforce.com.

HEALTH AND SAFETY IN DOOR INSTALLATIONS!

Tensioning the torsion springs of industrial doors has always been a severe and risky job. When you ask older and experienced installers they will tell you that muscles in their shoulders and arms are worn or hurt by the forces applied during door installation

in all those years. We think that is the main reason that our ISTT spring tensioning tool is so well received in the market today. If you have not tried it, this is the moment to do it!
